## How to Order Options (2-way, Angle, and 3-way)

**Lock-Out Devices** – Add the suffix **-LD** to the end of the part number to order directly on the valve. **Example:** 2F-MB4LPFA-SSP-LD. For field installation, simply substitute the correct valve series number in the following nomenclature: **LD**-valve series. **Example:** LD-MB6L

**Colored Handles** – Add the designator corresponding to the correct handle as a suffix to the part number: **W** - white, **B** - blue, **G** - green, **R** - red, **Y** - yellow. **Example:** 4Z-MB6LPFA-SSP-G

**Stainless Steel Handles** – Add the suffix **-ST** to the part number. **Example:** 4F-MB6LPFA-SSP-ST

**Oval Handles** – Add the suffix **-S** to the part number. **Example:** 6Z-MB6APFA-SSP-S. If requesting a colored oval handle, add the suffix **-S-color designator**. **Example:** 6Z-MB6APFA-SSP-S-W (\* MB6 ONLY)

**Vented Valves** – Add the designator **V** after the **MB** in the part number for the vent option. **Example:** 2Z-MBV2XPFA-SSP.

**Oxygen Cleaning** – Add the suffix **-C3** to the end of the part number to receive valves cleaned and assembled for oxygen service in accordance with Parker Specification ES8003. **Example:** 4A-MB4LPFA-SSP-C3

**Special Cleaning** – All face seal ended valves are cleaned in accordance with Parker Specification ES8001. This is an available option for all valves by adding the suffix **-C1** to the end of the part number. **Example:** 4V-MB4XPFA-SSP-C1

**Pneumatic Actuators** – For detailed actuator information, refer to Catalog 4123. For factory assembly, add the actuator part number as the suffix to the valve part number. **Example:** 4A-MB4LPFA-SSP-61AC-2. For field installation, specify the actuator desired. **Example:** 61AC-2. The appropriate mounting hardware may be obtained by adding the valve series and actuator size to the prefix **MK-**. **Example:** MK-MB4L-61

**Electric Actuators** – For detailed actuator information, refer to Catalog 4123. For factory assembly, add the actuator part number as the suffix to the valve part number. **Example:** M6A-MB6XPFA-SSP-71C. For field installation, specify the actuator desired. **Example:** 71C. The appropriate mounting hardware may be obtained by adding the valve series and actuator series to the prefix **MK-**. **Example:** MK-MB6X-70
